STATUTORY PROVISIONS

9. Code section 8516 states, in pertinent part:

(b) No registered company or licensee shall commence work on a contract, or sign, issue, or deliver any documents expressing an opinion or statement relating to the absence or presence of wood destroying pests or organisms until an inspection has been made by a licensed Branch 3 field representative or operator. The address of each property inspected or upon which work is completed shall be reported on a form prescribed by the board and shall be filed with the board no later than 10 business days after the commencement of an inspection or upon completed work.

Every property inspected pursuant to subdivision (b) of Section 8516.1, or Section 8518, or subdivision (b) of this section shall be assessed a filing fee pursuant to Section 8674.

Failure of a registered company to report and file with the board the address of any property inspected or work completed pursuant to Section 8516.1, Section 8518, or this section are grounds for disciplinary action and shall subject the registered company to a fine of not more than two thousand five hundred dollars (\$2,500).

A written inspection report conforming to this section and on a form approved by the board shall be prepared and delivered to the person requesting the inspection or to the person's designated agent within 10 business days of the inspection, except that an inspection report prepared for use by an attorney for litigation purposes is not required to be reported to the board. The report shall be delivered before work is commenced on any property. The registered company shall retain for three years all original inspection reports, filed notes, and activity forms.

Reports shall be made available for inspection and reproduction to the executive officer of the board or his or her duly authorized representative during business hours. Original inspection reports or copies thereof shall be submitted to the board upon request within two business days. The following shall be set forth in the report:

(6) A foundation diagram or sketch of the structure or structures or portions of the structure or structures inspected, indicating thereon the approximate location of any infested or infested areas evident, and the parts of the structure where conditions that would ordinarily subject those parts to attack by wood destroying pests or organisms exist.

(7) Information regarding the substructure, foundation walls and footings, porches, patios and steps, air vents, abutments, attic spaces, roof framing that includes the eaves, rafters, fascias, exposed timbers, exposed sheathing, ceiling joists, and attic walls, or other parts subject to attack by wood destroying pests or organisms. Conditions usually deemed likely to lead to infestation or infection, such as earth-wood contacts, excessive cellulose debris, faulty grade levels, excessive moisture conditions, evidence of roof leaks, and insufficient ventilation are to be reported.

(9) Indication or description of any areas that are inaccessible or not inspected with recommendation for further inspection if practicable. If, after the report has been made in

1 compliance with this section, authority is given later to open inaccessible areas; a
2 supplemental report on conditions in these areas shall be made.

3 10. Section 8518 of the Code states, in pertinent part:

4 When a registered company completes work under a contract, it shall prepare, on a
5 form prescribed by the board, a notice of work completed and not completed, and shall
6 furnish that notice to the owner of the property or the owner's agent within 10 working days
7 after completing the work. The notice shall include a statement of the cost of the completed
8 work and estimated cost of work not completed.

9 The address of each property inspected or upon which work was completed shall be
10 reported on a form prescribed by the board and shall be filed with the board no later than 10
11 working days after completed work.

12 11. Section 8519 of the Code states, in pertinent part:

13 Certification as used in this section means a written statement by the registered
14 company attesting to the statement contained therein relating to the absence or presence of
15 wood-destroying pests or organisms and, listing such recommendations, if any, which
16 appear on an inspection report prepared pursuant to Code section 8516, and which relate to
17 (1) infestation or infection of wood-destroying pests or organisms found, or (2) repair of
18 structurally weakened members caused by such infestation or infection, and which
19 recommendations have not been completed at the time of certification.

20 12. Section 8619 of the Code states, in pertinent part:

21 (b) If the registered company completes any work with respect to wood destroying pests
22 or organisms, it shall post a completion tag next to the inspection tag.

23 13. Code section 8638 states:

24 Failure on the part of a registered company to complete any operation or construction
25 repairs for the price stated in the contract for such operation or construction repairs or in
26 any modification of such contract is a ground for disciplinary action.

27 14. Code section 8641 states:

28 Failure to comply with the provisions of this chapter, or any rule or regulation
adopted by the board, or the furnishing of a report of inspection without the making of a
bona fide inspection of the premises for wood-destroying pests or organisms, or furnishing
a notice of work completed prior to the completion of the work specified in the contract, is
a ground for disciplinary action.

15. Code section 8644 states:

Fraud or misrepresentation, after inspection, by any licensee or registered company
engaged in pest control work of any infestation or infection of wood-destroying pests or

1 organisms found in property or structures, or respecting any conditions of the structure that
2 would ordinarily subject structures to attack by wood-destroying pests or organisms,
3 whether or not a report was made pursuant to Sections 8516 and 8517 of this code, is a
4 ground for disciplinary action.

REGULATORY PROVISIONS

5 16. California Code of Regulations, title 16, section 1990, states, in pertinent

17 reported.

18 (5) Commonly controllable moisture conditions which would foster the growth of a
19 fungus infection materially damaging to woodwork.

20 (d) Even though the licensee may consider the following areas inaccessible for purposes of
21 inspection, the licensee must state specifically which of these areas or any other areas were
22 not inspected and why the inspection of these areas is not practical: furnished interiors;
23 inaccessible attics or portions thereof; the interior of hollow walls; spaces between a floor
24 or porch deck and the ceiling or soffit below; stall showers over finished ceilings; such
25 structural segments as porte cocheres, enclosed bay windows, buttresses, and similar areas
26 to which there is no access without defacing or tearing out lumber, masonry or finished

(e) Information regarding all accessible areas of the structure including but not limited to
the substructure, foundation walls and footings, porches, patios and steps, stairways, air
vents, abutments, stucco walls, columns, attached structures or other parts of a structure
normally subject to attack by wood-destroying pests or organisms.

8 fifteen (15) minutes after the shower drain has been plugged and the base filled to within
9 one (1) inch of the top of the shower dam. Stall showers with no dam or less than two (2)
10 inches to the top of the dam are to be water tested by running water on the unplugged
11 shower base for a minimum of five (5) minutes./ showers over finished ceilings must be
12 inspected but need to be water tested. If water stains are evidence on the ceiling,
13 recommendations shall be made for further inspection and testing.

19 correcting the items described in the Report of Findings and to submit a corrected inspection
20 report and Notice of Work Completed and Not Completed to the Board within thirty (30) days
21 with respect to the inspection performed on April 23, 2008.

22 30. On or about August 5, 2009, Chris Abar ("Abar"), a Field Representative (License
23 No. FR 43804), inspected the Parker and McCormick property on Respondent's behalf, and
