- (1) The pest to be controlled.
- (2) The pesticide or pesticides proposed to be used, and the active ingredient or ingredients.

(3) "State law requires that you be given the following information:
CAUTION — PESTICIDES ARE TOXIC CHEMICALS. Structural Pest Control Companies are registered and regulated by the Structural Pest Control Board, and apply pesticides which are registered and approved for use by the California Department of Pesticide Regulation and the United States Environmental Protection Agency. Registration is granted when the state finds that, based on existing scientific evidence, there are no appreciable risks if proper use conditions are followed or that the risks are outweighed by the benefits. The degree of risk depends upon the degree of exposure, so exposure should be minimized."

"If within 24 hours following application you experience symptoms similar to common seasonal illness comparable to the flu, contact your physician or poison control center (telephone number) and your pest control company immediately." (This statement shall be modified to include any other symptoms of overexposure which are not typical of influenza.)

In the case of Branch 2 or Branch 3 registered company applications, the notice prescribed by subdivision (a) shall be provided no later than prior to application. In either case, the notice shall be given to the owner, or owner's agent, and tenant, if there is a tenant, in at least one of the following ways:

- (1) First-class mail.
- (2) Posting in a conspicuous place on the real property.
- (3) Personal delivery.

If the building is commercial or industrial, a notice shall be posted in a conspicuous place, unless the owner or owner's agent objects, in addition to any other notification required by this section.

The notice shall only be required to be provided at the time of the initial treatment if a contract for periodic service has been executed. If the pesticide to be used is changed, another notice shall be required to be provided in the manner previously set forth herein.

WOMACK PROJECT

22. In December 2007, homeowner Candance Womack ("Womack") received a telephone call from Respondent Cal Ex, offering a free termite inspection. Womack accepted the offer. Womack told the caller that she would like fumigation and asked if they performed fumigation. The caller said yes.

1 23. On or about December 19, 2007, a man arrived at Womack's residence
2 located at 14661 El Monte Road, Lakeside, California ("Womack project"), and introduced
3 himself as "Will." "Will" inspected the windowsill, wooden trim, and sliding glass door track in
4 the living room, the wooden retaining posts, the carport framing on the exterior, and the interior
5 basement/laundry area. "Will" confirmed termite infestations, and told Womack that there was a
6 beetle infestation in the paneling on the ceiling in her kitchen. "Will" also told Womack that
7 because the infestations were spotty, it would be a waste of money to fumigate. "Will" prepared
8 an estimate for the local treatment of drywood termites and beetles for \$625. The offer included
9 a three year guarantee. Womack accepted the offer. "Will" requested and received \$312.

10 24. On or about January 2, 2008, "Will" returned to Womack's residence and
11 treated the termite infestations, but he failed to treat the beetle infestation in the kitchen. "Will"
12 requested and received the remaining balance of \$312.50.

13 25. In or about March 2008, Womack began to see evidence of termites at the
14 windowsill and sliding glass door area (the same areas "Will" inspected and treated). Womack
15 telephoned Respondent Cal Ex and spoke with Respondent Guerrero. Womack explained that
16 the termites were back at the same locations and asked if "Will" could return to treat them.
17 Respondent Guerrero scheduled an appointment to return to the Womack residence, but no one
18 showed up for the appointment.

19 26. The next day Womack called Respondent Cal Ex and spoke with
20 Respondent Guerrero. Respondent Guerrero rescheduled the appointment, but no one showed up
21 for the appointment.

22 27. Womack called Respondent Cal Ex several times and reached the answering
23 machine. Womack left numerous messages but never received a return call.

24 28. On or about April 30, 2008, the Board received a complaint from Womack.

25 29. On or about October 10, 2008, a Board representative met with Womack at
26 her residence. The Board specialist confirmed the infestations and infections of drywood
27 termites.
