5. Code section 8624 states, in pertinent part:

....

If the operator is the qualifying manager, a partner, responsible officer, or owner of a registered structural pest control company, the suspension or revocation may be applied to the company registration . . .

6. Code section 8654 states:

Any individual who has been denied a license for any of the reasons specified in Section 8568, or who has had his or her license revoked, or whose license is under suspension, or who has failed to renew his or her license while it was under suspension, or who has been a member, officer, director, associate, qualifying manager, or responsible managing employee of any partnership, corporation, firm, or association whose application for a company registration has been denied for any of the reasons specified in Section 8568, or whose company registration has been revoked as a result of disciplinary action, or whose company registration is under suspension, and while acting as such member, officer, director, associate, qualifying manager, or responsible managing employee had knowledge of or participated in any of the prohibited acts for which the license or registration was denied, suspended or revoked, shall be prohibited from serving as an officer, director, associate, partner, qualifying manager, or responsible managing employee of a registered company, and the employment, election or association of such person by a registered company is a ground for disciplinary action.

7. Code section 8641 states:

Failure to comply with the provisions of this chapter, or any rule or regulation adopted by the board, or the furnishing of a report of inspection without the making of a bona fide inspection of the premises for wood destroying pests or organisms, or furnishing a notice of work completed prior to the completion of the work specified in the contract, is a ground for disciplinary action.

8. Code section 8642 states that "[t]he commission of any grossly negligent or fraudulent act by the licensee as a pest control operator, field representative, or applicator or by a registered company is a ground for disciplinary action."

9. Code section 8593 states:

The board shall require as a condition to the renewal of each operator's and field representative's license that the holder submit proof satisfactory to the board that he or she has informed himself or herself of developments in the field of pest control either by completion of courses of continuing education in pest control approved by the board or equivalent activity approved by the board.

In lieu of submitting that proof, the licenseholder, if he or she so desires, may take and successfully complete an examination given by the board, designed to test his or her knowledge of developments in the field of pest control since the issuance of his or her license.

///

1           The board shall develop a correspondence course or courses with any  
2 educational institution or institutions as it deems appropriate. This course may be  
3 used to fulfill the requirements of this section. The institution may charge a  
4 reasonable fee for each course.

5           The board may charge a fee for the taking of an examination in each  
6 branch of pest control pursuant to this section in an amount sufficient to cover the  
7 cost of administering each examination, provided, however, that in no event shall the  
8 fee exceed fifty dollars (\$50) for each examination.

9           10. California Code of Regulations, title 16, section ("Regulation") 1950 states, in  
10 pertinent part:

11           (a) Except as provided in section 1951, every licensee is required, as a  
12 condition to renewal of a license, to certify that he or she has completed the  
13 continuing education requirements set forth in this article. A licensee who cannot  
14 verify completion of continuing education by producing certificates of activity  
15 completion, whenever requested to do so by the Board, may be subject to disciplinary  
16 action under section 8641 of the code.

17           (b) Each licensee is required to gain a certain number of continuing  
18 education hours during the three year renewal period. The number of hours required  
19 depends on the number of branches of pest control in which licenses are held. The  
20 subject matter covered by each activity shall be designated as "technical" or "general"  
21 by the Board when the activity is approved. Hour values shall be assigned by the  
22 Board to each approved educational activity, in accordance with the provisions of  
23 section 1950.5.

24           (c) Operators licensed in one branch of pest control shall complete 16  
25 continuing education hours during each three year renewal period. Operators licensed  
26 in two branches of pest control shall complete 20 continuing education hours during  
27 each three year renewal period. Operators licensed in three branches of pest control  
28 shall complete 24 continuing education hours during each three year renewal period.  
In each case, a minimum of four continuing education hours in a technical subject  
directly related to each branch of pest control held by the licensee must be completed  
for each branch license, a minimum of two hours in Integrated Pest Management as  
defined in section 1984 must be completed by Branch 2 and/or 3 licensees renewing  
on or after June 30, 2010, and a minimum of eight hours must be completed from  
Board approved courses on the Structural Pest Control Act, the Rules and  
Regulations, or structural pest control related agencies' rules and regulations . . .

#### COST RECOVERY

11           11. Code section 125.3 states, in pertinent part, that a Board may request the  
12 administrative law judge to direct a licentiate found to have committed a violation or violations of  
13 the licensing act to pay a sum not to exceed the reasonable costs of the investigation and  
14 enforcement of the case.
