JURISDICTION

14. This Accusation is brought before the Board, under the authority of the following laws. All section references are to the Business and Professions Code unless otherwise indicated.

15. Section 118, subdivision (b) of the Code provides that the suspension/expiration/surrender/cancellation of a license shall not deprive the Board of jurisdiction to proceed with a disciplinary action during the period within which the license may be renewed, restored, reissued or reinstated.

16. Section 8625 of the Code states:

“The lapsing or suspension of a license or company registration by operation of law or by order or decision of the board or a court of law, or the voluntary surrender of a license or

1 company registration shall not deprive the board of jurisdiction to proceed with any investigation  
2 of or action or disciplinary proceeding against such licensee or company, or to render a decision  
3 suspending or revoking such license or registration.”

#### 4 STATUTORY PROVISIONS

5 17. Section 8506.2 of the Code defines the term “qualifying manager” as “the licensed  
6 operator or operators designated by a registered company to supervise the daily business of the  
7 company and to be available to supervise and assist the company’s employees.”

8 18. Section 8516, subdivision (b) of the Code states, in pertinent part:

9 . . . .

10 “No registered company or licensee shall commence work on a contract, or sign, issue, or  
11 deliver any documents expressing an opinion or statement relating to the absence or presence of  
12 wood destroying pests or organisms until an inspection has been made by a licensed Branch 3  
13 field representative or operator. The address of each property inspected or upon which work is  
14 completed shall be reported on a form prescribed by the board and shall be filed with the board no  
15 later than 10 business days after the commencement of an inspection or upon completed work.

16 “Every property inspected pursuant to subdivision or Section 8518 shall be assessed a filing  
17 fee pursuant to Section 8674.

18 “Failure of a registered company to report and file with the board the address of any  
19 property inspected or work completed pursuant to Section 8518 or this section is grounds for  
20 disciplinary action and shall subject the registered company to a fine of not more than two  
21 thousand five hundred dollars (\$2,500).

22 “A written inspection report conforming to this section and on a form approved by the  
23 board shall be prepared and delivered to the person requesting the inspection or to the person’s  
24 designated agent within 10 business days of the inspection, except that an inspection report  
25 prepared for use by an attorney for litigation purposes is not required to be reported to the board.  
26 The report shall be delivered before work is commenced on any property. The registered  
27 company shall retain for three years all original inspection reports, field notes, and activity forms.

28

1 "Reports shall be made available for inspection and reproduction to the executive officer of  
2 the board or his or her duly authorized representative during business hours. Original inspection  
3 reports or copies thereof shall be submitted to the board upon request within two business days.

4 The following shall be set forth in the report:

5 . . . .

6 "(6) A foundation diagram or sketch of the structure or structures or portions of the  
7 structure or structures inspected, indicating thereon the approximate location of any infested or  
8 infected areas evident, and the parts of the structure where conditions that would ordinarily  
9 subject those parts to attack by wood destroying pests or organisms exist.

10 "(7) Information regarding the substructure, foundation walls and footings, porches, patios  
11 and steps, air vents, abutments, attic spaces, roof framing that includes the eaves, rafters, fascias,  
12 exposed timbers, exposed sheathing, ceiling joists, and attic walls, or other parts subject to attack  
13 by wood destroying pests or organisms. Conditions usually deemed likely to lead to infestation  
14 or infection, such as earth-wood contacts, excessive cellulose debris, faulty grade levels,  
15 excessive moisture conditions, evidence of roof leaks, and insufficient ventilation are to be  
16 reported.

17 . . . .

18 "(10) Recommendations for corrective measures.

19 . . . .

20 "(13) The inspection report shall contain the following statement, printed in boldface type:

21 "NOTICE: Reports on this structure prepared by various registered companies should list  
22 the same findings (i.e. termite infestations, termite damage, fungus damage, etc.). However,  
23 recommendations to correct these findings may vary from company to company. You have a  
24 right to seek a second opinion from another company.'

25 "An estimate or bid for repairs shall be given separately allocating the costs to perform each  
26 and every recommendation for corrective measures as specified in subdivision (c) with the  
27 original inspection report if the person who ordered the original inspection report so requests, and  
28 if the registered company is regularly in the business of performing corrective measures.

1            “If no estimate or bid was given with the original inspection report, or thereafter, then the  
2 registered company shall not be required to perform a reinspection.

3            “A reinspection shall be an inspection of those items previously listed on an original report  
4 to determine if the recommendations have been completed. Each reinspection shall be reported  
5 on an original inspection report form and shall be labeled ‘Reinspection’ in capital letters by  
6 rubber stamp or typewritten. Each reinspection shall also identify the original report by date.

7            “After four months from an original inspection, all inspections shall be original inspections  
8 and not reinspections.

9            “Any reinspection shall be performed for not more than the price of the registered  
10 company’s original inspection price and shall be completed within 10 working days after a  
11 reinspection has been ordered.”

12           19. Section 8518 of the Code states:

13            “When a registered company completes work under a contract, it shall prepare, on a form  
14 prescribed by the board, a notice of work completed and not completed, and shall furnish that  
15 notice to the owner of the property or the owner’s agent within 10 working days after completing  
16 the work. The notice shall include a statement of the cost of the completed work and estimated  
17 cost of work not completed.

18            “The address of each property inspected or upon which work was completed shall be  
19 reported on a form prescribed by the board and shall be filed with the board no later than 10  
20 working days after completed work.

21            “Every property upon which work is completed shall be assessed a filing fee pursuant to  
22 Section 8674.

23            “Failure of a registered company to report and file with the board the address of any  
24 property upon which work was completed pursuant to subdivision (b) of Section 8516 or Section  
25 8518 is grounds for disciplinary action and shall subject the registered company to a fine of not  
26 more than two thousand five hundred dollars (\$2,500).

27            “The registered company shall retain for three years all original notices of work completed,  
28 work not completed, and activity forms.

1           “Notices of work completed and not completed shall be made available for inspection and  
2 reproduction to the executive officer of the board or his or her duly authorized representative  
3 during business hours. Original notices of work completed or not completed or copies thereof  
4 shall be submitted to the board upon request within two business days.”

5           20. Section 8610, subdivision (c) of the Code states:

6           “Each registered company shall designate an individual or individuals who hold an  
7 operator’s license to act as its qualifying manager or managers. The qualifying manager or  
8 managers must be licensed in each branch of pest control in which the company engages in  
9 business. The designated qualifying manager or managers shall supervise the daily business of  
10 the company and shall be available to supervise and assist all employees of the company, in  
11 accordance with regulations which the board may establish.”

12           21. Section 8620 of the Code provides, in pertinent part, that the Board may suspend or  
13 revoke a license when it finds that the holder, while a licensee, has committed any acts or  
14 omissions constituting cause for disciplinary action or in lieu of a suspension may assess a civil  
15 penalty. The statute also provides that a respondent may request that a civil penalty of not more  
16 than \$5,000 be assessed in lieu of an actual suspension of 1 to 19 days, or not more than \$10,000  
17 for an actual suspension of 20 to 45 days. Such request must be made at the time of the hearing  
18 and must be noted in the proposed decision. The proposed decision shall not provide that a civil  
19 penalty shall be imposed in lieu of a suspension.

20           22. Section 8624 of the Code states:

21           “If the board suspends or revokes an operator’s license and one or more branch offices are  
22 registered under the name of the operator, the suspension or revocation may be applied to each  
23 branch office.

24           “If the operator is the qualifying manager, a partner, responsible officer, or owner of a  
25 registered structural pest control company, the suspension or revocation may be applied to the  
26 company registration.

27           “The performance by any partnership, corporation, firm, association, or registered company  
28 of any act or omission constituting a cause for disciplinary action, likewise constitutes a cause for

1 disciplinary action against any licensee who, at the time the act or omission occurred, was the  
2 qualifying manager, a partner, responsible officer, or owner of the partnership, corporation, firm,  
3 association, or registered company whether or not he or she had knowledge of, or participated in,  
4 the prohibited act or omission.”

5 23. Section 8638 of the Code states that “[f]ailure on the part of a registered company to  
6 complete any operation or construction repairs for the price stated in the contract for such  
7 operation or construction repairs or in any modification of such contract is a ground for  
8 disciplinary action.”

9 24. Section 8639 of the Code states:

10 “Aiding or abetting an unlicensed individual or unregistered company to evade the  
11 provisions of this chapter [the Structural Pest Control Act, Bus. & Prof. Code, § 8500 et seq.] or  
12 knowingly combining or conspiring with an unlicensed individual or unregistered company, or  
13 allowing one’s license or company registration to be used by an unlicensed individual or  
14 unregistered company, or acting as agent or partner or associate, or otherwise, of an unlicensed  
15 individual or unregistered company to evade the provisions of this chapter is a ground for  
16 disciplinary action.”

17 25. Section 8641 of the Code states:

18 “Failure to comply with the provisions of this chapter, or any rule or regulation adopted by  
19 the board, or the furnishing of a report of inspection without the making of a bona fide inspection  
20 of the premises for wood-destroying pests or organisms, or furnishing a notice of work completed  
21 prior to the completion of the work specified in the contract, is a ground for disciplinary action.”

22 26. Section 8642 of the Code states that “[t]he commission of any grossly negligent or  
23 fraudulent act by the licensee as a pest control operator, field representative, . . . or by a registered  
24 company is a ground for disciplinary action.”

25 27. Section 8650 of the Code states, in pertinent part:

26 “Acting in the capacity of a licensee or registered company under any of the licenses or  
27 registrations issued hereunder except:  
28

1           “(a) In the name of the licensee or registered company as set forth upon the license or  
2 registration . . . .”

3           28. Section 8652 of the Code states:

4           “Failure of a registered company to make and keep all inspection reports, field notes,  
5 contracts, documents, notices of work completed, and records, other than financial records, for a  
6 period of not less than three years after completion of any work or operation for the control of  
7 structural pests or organisms, is a ground for disciplinary action. These records shall be made  
8 available to the executive officer of the board or his or her duly authorized representative during  
9 business hours.”

10          29. Section 8654 of the Code states, in pertinent part:

11          “Any individual who . . . has had his or her license revoked, or whose license is under  
12 suspension, or who has failed to renew his or her license while it was under suspension, or who  
13 has been a member, officer, director, associate, qualifying manager, or responsible managing  
14 employee of any partnership, corporation, firm, or association whose application for a company  
15 registration has been denied for any of the reasons specified in Section 8568, or whose company  
16 registration has been revoked as a result of disciplinary action, or whose company registration is  
17 under suspension, and while acting as such member, officer, director, associate, qualifying  
18 manager, or responsible managing employee had knowledge of or participated in any of the  
19 prohibited acts for which the license or registration was denied, suspended or revoked, shall be  
20 prohibited from serving as an officer, director, associate, partner, qualifying manager, or  
21 responsible managing employee of a registered company, and the employment, election or  
22 association of such person by a registered company is a ground for disciplinary action.”

23          30. Section 8666 of the Code states, in pertinent part:

24          “It shall be unlawful for any licensee under this chapter to recommend or to perform any  
25 pest control corrective work under any contract or agreement that the licensee knows or has  
26 reason to know is in excess of that required to eliminate the condition for which the licensee was  
27 employed.”

28          ///

23 attics or portions thereof; the interior of hollow walls; spaces between a floor or porch deck and  
24 the ceiling or soffit below; stall showers over finished ceilings; such structural segments as porte  
25 cocheres, enclosed bay windows, buttresses, and similar areas to which there is no access without

1           “(e) Information regarding all accessible areas of the structure including but not limited to  
2 the substructure, foundation walls and footings, porches, patios and steps, stairways, air vents,

4 subject to attack by wood-destroying pests or organisms.

5           “(f) The following language shall appear just prior to the first finding/recommendation on
