2 (c) The respondent shall be entitled to a hearing on the merits if the respondent  
3 files a notice of defense, and the notice shall be deemed a specific denial of all parts  
4 of the accusation not expressly admitted. Failure to file a notice of defense shall  
5 constitute a waiver of respondent's right to a hearing, but the agency in its discretion  
6 may nevertheless grant a hearing.

7 38. Each Respondent failed to file a Notice of Defense within 15 days after service upon  
8 them of the Accusation, and therefore waived their right to a hearing on the merits of Accusation  
9 No. 2010-82.

11 (a) If the respondent either fails to file a notice of defense or to appear at the  
12 hearing, the agency may take action based upon the respondent's express admissions  
13 or upon other evidence and affidavits may be used as evidence without any notice to  
14 respondent.

15 40. Pursuant to its authority under Government Code section 11520, the Board finds that  
16 each Respondent is in default. The Board will take action without further hearing and, based on  
17 the relevant evidence before it in the Default Decision Evidence Packet in this matter, and the  
18 officially noticed investigative reports, exhibits, and statements on file at the Board's offices  
19 regarding Accusation, Case No. 2010-82, finds that the allegations therein are jointly and  
20 severally found to be true and correct by clear and convincing evidence.

21 41. Taking official notice of its own internal records, pursuant to Business and  
22 Professions Code section 125.3, the Board determines that total costs for investigation and  
23 enforcement in connection with the Accusation are \$7,103.47 as of July 28, 2010. (See Default

13 34. This Accusation is brought before the Structural Pest Control Board (Board),  
14 Department of Pesticide Regulation, under the authority of the following laws. All section  
15 references are to the Business and Professions Code unless otherwise indicated.

16 35. Section 8620 of the Business and Professions Code (Code) states:

17 The board may upon its own motion, and shall upon verified complaint in  
18 writing of any person, investigate the actions of any individual acting as a licensee, or  
making application for a license.

19 After a hearing, the board may temporarily suspend or permanently  
20 revoke a license issued under this chapter if the holder, while a licensee or applicant,  
21 is guilty of or commits any one or more of the acts or omissions constituting grounds  
for disciplinary action. In addition to its authority to suspend or revoke a license, the  
board may assess a civil penalty as follows:

22 (a) Upon the conclusion of a hearing held pursuant to Chapter 5  
23 (commencing with Section 11500) of Part 1 of Division 3 of Title 2 of the  
Government Code, if the proposed decision of the hearing officer is that the licensee  
24 is guilty of or has committed any one of the acts or omissions constituting grounds for  
disciplinary action, the proposed decision shall provide for the imposition of a  
25 suspension or for the revocation of the license. In this case, the board may impose the  
suspension or revocation. The board may also, in lieu of a suspension, assess a civil  
26 penalty. The licensee may express a preference for a form of discipline, but the board  
shall not be bound by any expression of preference.

27 If a licensee elects to stipulate to a disciplinary action prior to an  
28 administrative hearing, the board may impose a civil penalty, in accordance with this  
section, in lieu of suspension.

1 If a proposed stipulation is rejected by the board, it is null and void and  
does not constitute an admission of any violation charged.

2 (b) The civil penalty shall not be more than five thousand dollars (\$5,000)  
3 for an actual suspension of one to 19 days.

4 (c) The civil penalty shall not be more than ten thousand dollars  
(\$10,000) for an actual suspension of 20 to 45 days.

5 (d) If a licensee is assessed the civil penalty in lieu of an actual  
6 suspension, the penalty shall be paid before the effective date of the decision.

7 (e) If the civil penalty is not paid before the effective date of the  
8 suspension, the license shall be suspended until the penalty is paid or until the actual  
suspension is served.

9 No civil penalty shall be assessed in lieu of any suspension which  
10 exceeds 45 days. With the exception of the proceedings on suspensions undertaken or  
11 on fines levied pursuant to Section 8617, the proceedings under this article shall be  
conducted in accordance with Chapter 5 (commencing with Section 11500) of Part 1  
of Division 3 of Title 2 of the Government Code, and the board shall have all the  
powers granted therein.

12 In any order of suspension or revocation, the board may authorize the  
13 completion of any contract or work contracted for under terms and conditions set  
forth in the order.

14 36. Section 8624 of the Code states:

15 If the board suspends or revokes an operator's license and one or more  
16 branch offices are registered under the name of the operator, the suspension or  
revocation may be applied to each branch office.

17 If the operator is the qualifying manager, a partner, responsible officer, or  
18 owner of a registered structural pest control company, the suspension or revocation  
may be applied to the company registration.

19 The performance by any partnership, corporation, firm, association, or  
20 registered company of any act or omission constituting a cause for disciplinary action,  
likewise constitutes a cause for disciplinary action against any licensee who, at the  
21 time the act or omission occurred, was the qualifying manager, a partner, responsible  
officer, or owner of the partnership, corporation, firm, association, or registered  
22 company whether or not he or she had knowledge of, or participated in, the prohibited  
act or omission.

23 37. Section 8625 of the Code states:

24 The lapsing or suspension of a license or company registration by  
25 operation of law or by order or decision of the board or a court of law, or the  
voluntary surrender of a license or company registration shall not deprive the board of  
26 jurisdiction to proceed with any investigation of or action or disciplinary proceeding  
against such licensee or company, or to render a decision suspending or revoking  
27 such license or registration.

## STATUTORY PROVISIONS

38. Section 8505.5 of the Code states:

Notice of the date and place of fumigation, and chemicals to be used, shall be given by the fumigator to the fire department serving the area in which fumigation is to be performed not less than two hours prior to the time fumigation begins. The fire department shall not charge any fees for any service related to structural pest control activities except for the costs of an emergency response necessitated by illegal or negligent actions.

If requested by the county agricultural commissioner, notice of each fumigation to be performed shall be given to the commissioner in the county in which the job is to be performed. The notice, which may be mailed or given by telephone, at the option of the commissioner, shall be given at least 24 hours prior to the time fumigation begins, unless the commissioner determines that less time is sufficient. No fee shall be assessed for processing the notice which may be requested by the commissioner.

39. Section 8505.11 of the Code states:

If the structure which has been fumigated has an attic or if the area underneath such structure is accessible to inspection for purposes of structural pest control, the registered company which performed the fumigation shall, immediately upon completion, post in the attic, immediately adjacent to the entrance thereto, or in the area underneath the structure, immediately adjacent to the main entrance vent thereof, or in both of such places if the structure has an attic and an accessible underarea, a durable sign not less than five inches by seven inches in size stating the name of the registered company, the date of fumigation, and the type of fumigant used.

40. Section 8516 of the Code states:

(a) This section, and Section 8519, apply only to wood destroying pests or organisms.

(b) No registered company or licensee shall commence work on a contract, or sign, issue, or deliver any documents expressing an opinion or statement relating to the absence or presence of wood destroying pests or organisms until an inspection has been made by a licensed Branch 3 field representative or operator. The address of each property inspected or upon which work is completed shall be reported on a form prescribed by the board and shall be filed with the board no later than 10 business days after the commencement of an inspection or upon completed work.

Every property inspected pursuant to subdivision or Section 8518 shall be assessed a filing fee pursuant to Section 8674.

Failure of a registered company to report and file with the board the address of any property inspected or work completed pursuant to Section 8518 or this section is grounds for disciplinary action and shall subject the registered company to a fine of not more than two thousand five hundred dollars (\$2,500).

A written inspection report conforming to this section and on a form

1 approved by the board shall be prepared and delivered to the person requesting the  
2 inspection or to the person's designated agent within 10 business days of the  
3 inspection, except that an inspection report prepared for use by an attorney for  
4 litigation purposes is not required to be reported to the board. The report shall be  
5 delivered before work is commenced on any property. The registered company shall  
6 retain for three years all original inspection reports, field notes, and activity forms.

7 Reports shall be made available for inspection and reproduction to the  
8 executive officer of the board or his or her duly authorized representative during  
9 business hours. Original inspection reports or copies thereof shall be submitted to the  
10 board upon request within two business days. The following shall be set forth in the  
11 report:

12 (1) The date of the inspection and the name of the licensed field  
13 representative or operator making the inspection.

14 (2) The name and address of the person or firm ordering the report.

15 (3) The name and address of any person who is a party in interest.

16 (4) The address or location of the property.

17 (5) A general description of the building or premises inspected.

18 (6) A foundation diagram or sketch of the structure or structures or  
19 portions of the structure or structures inspected, indicating thereon the approximate  
20 location of any infested or infected areas evident, and the parts of the structure where  
21 conditions that would ordinarily subject those parts to attack by wood destroying  
22 pests or organisms exist.

23 (7) Information regarding the substructure, foundation walls and  
24 footings, porches, patios and steps, air vents, abutments, attic spaces, roof framing  
25 that includes the eaves, rafters, fascias, exposed timbers, exposed sheathing, ceiling  
26 joists, and attic walls, or other parts subject to attack by wood destroying pests or  
27 organisms. Conditions usually deemed likely to lead to infestation or infection, such  
28 as earth-wood contacts, excessive cellulose debris, faulty grade levels, excessive  
moisture conditions, evidence of roof leaks, and insufficient ventilation are to be  
reported.

(8) One of the following statements, as appropriate, printed in bold type:  
(A) **The exterior surface of the roof was not inspected. If you want the water  
tightness of the roof determined, you should contact a roofing contractor who is  
licensed by the Contractors' State License Board.**

(B) **The exterior surface of the roof was inspected to determine whether  
or not wood destroying pests or organisms are present.**

(9) Indication or description of any areas that are inaccessible or not  
inspected with recommendation for further inspection if practicable. If, after the  
report has been made in compliance with this section, authority is given later to open  
inaccessible areas, a supplemental report on conditions in these areas shall be made.

(10) Recommendations for corrective measures.

(11) Information regarding the pesticide or pesticides to be used for their  
control as set forth in subdivision (a) of Section 8538.

1 (12) The inspection report shall clearly disclose that if requested by the  
2 person ordering the original report, a reinspection of the structure will be performed if  
3 an estimate or bid for making repairs was given with the original inspection report, or  
4 thereafter.

5 (13) The inspection report shall contain the following statement, printed  
6 in boldface type:

7 NOTICE: Reports on this structure prepared by various registered  
8 companies should list the same findings (i.e. termite infestations, termite damage,  
9 fungus damage, etc.). However, recommendations to correct these findings may vary  
10 from company to company. You have a right to seek a second opinion from another  
11 company." An estimate or bid for repairs shall be given separately allocating the costs  
12 to perform each and every recommendation for corrective measures as specified in  
13 subdivision (c) with the original inspection report if the person who ordered the  
14 original inspection report so requests, and if the registered company is regularly in the  
15 business of performing corrective measures.

16 If no estimate or bid was given with the original inspection report, or  
17 thereafter, then the registered company shall not be required to perform a  
18 reinspection.

19 A reinspection shall be an inspection of those items previously listed on  
20 an original report to determine if the recommendations have been completed. Each  
21 reinspection shall be reported on an original inspection report form and shall be  
22 labeled "Reinspection" in capital letters by rubber stamp or typewritten. Each  
23 reinspection shall also identify the original report by date.

24 After four months from an original inspection, all inspections shall be  
25 original inspections and not reinspections.

26 Any reinspection shall be performed for not more than the price of the  
27 registered company's original inspection price and shall be completed within 10  
28 working days after a reinspection has been ordered.

25 work specified in the contract, is a ground for disciplinary action.

26 45. Section 8642 of the Code states:

27 The commission of any grossly negligent or fraudulent act by the licensee  
28 as a pest control operator, field representative, or applicator or by a registered  
company is a ground for disciplinary action.

46. Section 8644 of the Code states:

Fraud or misrepresentation, after inspection, by any licensee or registered  
company engaged in pest control work of any infestation or infection of wood-  
destroying pests or organisms found in property or structures, or respecting any  
conditions of the structure that would ordinarily subject structures to attack by wood-  
destroying pests or organisms, whether or not a report was made pursuant to Sections  
8516 and 8517 of this code, is a ground for disciplinary action.

47. Section 8654 of the Code states:

Any individual who has been denied a license for any of the reasons  
specified in Section 8568, or who has had his or her license revoked, or whose license  
is under suspension, or who has failed to renew his or her license while it was under

1 suspension, or who has been a member, officer, director, associate, qualifying  
2 manager, or responsible managing employee of any partnership, corporation, firm, or  
3 association whose application for a company registration has been denied for any of

9 revoked, shall be prohibited from serving as an officer, director, associate, partner,  
10 qualifying manager, or responsible managing employee of a registered company, and  
11 the employment, election or association of such person by a registered company is a  
12 ground for disciplinary action.

24 act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the  
25 case.

## 26 FACTS

27 54. On July 17, 2009, the San Diego County Department of Agriculture, Weights and  
28 Measures (County) referred violations by Respondent Atlas Termite Company to Complainant for  
consideration of enforcement action. The referral was largely due to Atlas' continuing to engage  
in pest control while its registration with the Board was suspended, and its pattern of failing to  
give notice of the date and place of fumigations. Complainant received the referral on July 22,  
2009.

1           55. Complainant's investigation of the County's referral revealed that between March  
2 2008 and May 2009, Respondents had violated the laws and regulations of the Board as follows:

3           a. No Surety Bond: Respondents failed to maintain a surety bond in the amount of  
4 \$4,000, for which its company registration was suspended on June 6, 2008. However,  
5 Respondents continued to engage in pest control between June 6 and September 16, 2008,  
6 without the required surety bond.

7           b. Proctor Valley Rd. Property: In July and August 2008, Respondents conducted a  
8 Branch I fumigation at 13518 Proctor Valley Road, Jamul, California. On August 25 and 26,  
9 2008, the County performed and recorded a video surveillance of the fumigation, and  
10 photographed the treated structure. Respondent Olivarria submitted the fumigation log and three  
11 written Notices of Intent (NOI) to the County for the Proctor Valley job, but claimed that his wife  
12 verbally submitted a NOI to the County for the August 25, 2008 work the day before the actual  
13 fumigation by telephone, when, in fact, no such telephonic NOI was submitted.

14           c. Eighth St. Property: On October 21, 2008, the County received an illness complaint  
15 from a dentist located at 2340 East 8th Street, National City, California, whose office  
16 Respondents had fumigated three days earlier on October 18, 2008. The office workers'  
17 symptoms included watery, itchy eyes; headaches; vomiting; and respiratory irritation. The  
18 County's investigation concluded that Respondents had:

19           1. failed to use the proper amount of chloropicrin in one of three chloropicrin pans  
20 placed in the structure at the property. Respondent Olivarria, the licensee in charge of the  
21 fumigation, exceeded the maximum amount of chloropicrin allowed for use in a single pan by  
22 using it more than allowed by fumigant label directions;

23           2. failed to remove water bottles from coolers within the structure prior to  
24 introducing the fumigant at the property. Respondent Olivarria did not remove open water bottles  
25 as required by fumigant label directions;

26           3. failed to accurately record the dates of aeration and occupancy on the  
27 fumigation log for the property;

28

1           4.     failed to file a NOI for the property within 24 hours of the commencement of  
2 fumigation; and

3           5.     failed to file a Wood Destroying Pests and Organisms report and Notice of  
4 Work Completed and Not Completed at the property within 10 days after inspection was made or  
5 work was completed.

6           d.     Inconsistent Structural Pest Control Records: On November 17, 2008, the County  
7 conducted a records inspection at Respondents' company, with Respondent Olivarria present.  
8 Inspection of fumigation logs for fumigations performed in San Diego County in April and May  
9 of 2008 revealed that cylinder weights during the course of use were sometimes logged as having  
10 more weight after fumigation than after fumigation on a previous date; starting weights in some  
11 instances did not reflect the amount of stated weight after the previous day's use.

12           e.     Missing Notices of Intent: On December 18, 2008, the County reviewed NOIs  
13 submitted for April through October 2008, but found that Respondents failed to submit any NOIs  
14 for the months of July and August, even though Respondents' Monthly Summary Pesticide Use  
15 Reports (MSPURs) reported 19 applications of Vikane fumigant in July 2008, and 14 applications  
16 of Vikane fumigant in August 2008. In all, Respondents' company failed to submit NOIs for  
17 fumigations completed from April through August 2008.

18           f.     Tricia S. Property:

19           1.     On May 19, 2009 the County performed a fumigation compliance inspection at  
20 14117 Tricia St, Poway, California. However, Respondents failed to submit an NOI to the  
21 County for the May 18, 2009 fumigation within the 24-hour limit of doing so, since the NOI  
22 Respondents submitted on May 13, 2009, was premature.

23           2.     On May 20, 2009, the County observed the aeration phase of the fumigation at  
24 the Tricia St. property. Respondents' personnel present at the property were Respondents Adrian  
25 Olivarria and his father Joseph Anthony Olivarria, who failed to don Self Contained Breathing  
26 Apparatus (SCBA), to install equipment to facilitate the required Tarpaulin Aeration Removal  
27 Plan (TARP), and to remove the chloropicrin pan (pic-pan) as required by the fumigant's label  
28 directions.

1           3.     On May 21, 2009, County Inspectors met with Respondent Olivarria at the  
2 Tricia St. property to verify that the treated areas of the structure did not exceed a fumigant level  
3 of 1 part per million. The Inspectors observed that the structure had been posted with a Notice of  
4 Re-Entry, and the County's gas analyzer did not detect readable levels of sulfuryl fluoride  
5 fumigant. A fumigation completion sign had not been posted in the attic as required, and  
6 Respondent Olivarria ascended into the attic and confirmed that no completion sign was present.  
7 Though Respondent Olivarria noted that a completion sign had been placed on the garage wall, it  
8 measured only 3" x 5", which is less than the 5" x 7" required. A check of Respondents'  
9 company's Interscan device for its most recent calibration date showed a sticker on its top panel  
10 identifying a calibration date of August 18, 2008 by UNIVAR. Respondent Olivarria said that  
11 particular device was not used to check the structure on Tricia St., but that his company had two  
12 such devices and the other had been used to test the structure.

13           4.     On May 22, 2009, the County asked Respondent Olivarria to bring to the  
14 County the Interscan device that was used to clear the Tricia St. property for examination, but  
15 Respondent Olivarria brought in the same Interscan device that was present at the Tricia St.  
16 property the previous day. Though Respondent Olivarria claimed that there were additional  
17 stickers indicating calibration dates on the side panel of the device, there was only a calibration  
18 date on the sticker of January 19, 2009, and that sticker showed a serial number different from  
19 that of the device to which it was attached, which Respondent was unable to explain. The Vikane  
20 fumigant label requires that the Interscan be calibrated according to the manufacturer  
21 recommendations within one-month prior to use as a clearance device.

22           5.     On May 29, 2009, the County provided the Board with a copy of Respondent's  
23 fumigation log for the Tricia St. property indicating May 20, 2009, 12:45 p.m. as the date and  
24 time of commencement of aeration. However, County Inspectors were on-site from 8:07 a.m. to  
25 2:00 p.m., and did not observe commencement of aeration at 12:45 PM as indicated on  
26 Respondent's fumigation log. The Vikane fumigant label requires that the structure aerate with  
27 all operable windows and doors open.

28           g.     Rob Roy Place Property:

1           1.    On May 19, 2009, a County Inspector observed a fumigation truck belonging to  
2 Respondent company parked in the driveway of 3412 Rob Roy Place, San Diego, California. The  
3 Inspector noted that the date on the NOI for the fumigation that Respondents had submitted to the  
4 County was May 15, 2009, beyond the 24-hour limit. When the Inspector left and returned  
5 approximately two hours later, she found the truck gone but observed that a shed on the property  
6 had been tented and had fumigation warning signs posted on it, indicating that the fumigant had  
7 been released into the structure on May 19, 2008 at 10:30 a.m.

8           2.    On May 20, 2009, County Inspectors conducted an undercover use-monitoring  
9 inspection at the Rob Roy Place property. Respondents' personnel present at the property were  
10 Adrian Olivarria and Joseph Anthony Olivarria. Respondents' personnel failed to don the SCBA  
11 as required, to install equipment to facilitate the required Tarpaulin Aeration Removal Plan  
12 (TARP), and to remove the chloropicrin pan (pic-pan) as required by the fumigant's label  
13 directions.

22 County a fumigation log for the Tricia S. property indicating May 20, 2009, 12:45 p.m. as the  
23 date and time of aeration commencement, when in fact, Respondents did not commence aeration  
24 at that time.
