JURISDICTION

14. This Accusation is brought before the Board, under the authority of the following laws. All section references are to the Business and Professions Code unless otherwise indicated.

15. Section 118, subdivision (b) of the Code provides that the suspension/expiration/surrender/cancellation of a license shall not deprive the Board of jurisdiction to proceed with a disciplinary action during the period within which the license may be renewed, restored, reissued or reinstated.

16. Section 8625 of the Code states:

"The lapsing or suspension of a license or company registration by operation of law or by order or decision of the board or a court of law, or the voluntary surrender of a license or

company registration shall not deprive the board of jurisdiction to proceed with any investigation of or action or disciplinary proceeding against such licensee or company, or to render a decision suspending or revoking such license or registration."

STATUTORY PROVISIONS

17. Section 8506.2 of the Code defines the term "qualifying manager" as "the licensed operator or operators designated by a registered company to supervise the daily business of the company and to be available to supervise and assist the company's employees."

18. Section 8516, subdivision (b) of the Code states, in pertinent part:

. . . .

"No registered company or licensee shall commence work on a contract, or sign, issue, or deliver any documents expressing an opinion or statement relating to the absence or presence of wood destroying pests or organisms until an inspection has been made by a licensed Branch 3 field representative or operator. The address of each property inspected or upon which work is completed shall be reported on a form prescribed by the board and shall be filed with the board no later than 10 business days after the commencement of an inspection or upon completed work.

"Every property inspected pursuant to subdivision or Section 8518 shall be assessed a filing fee pursuant to Section 8674.

"Failure of a registered company to report and file with the board the address of any property inspected or work completed pursuant to Section 8518 or this section is grounds for disciplinary action and shall subject the registered company to a fine of not more than two thousand five hundred dollars ($2,500).

"A written inspection report conforming to this section and on a form approved by the board shall be prepared and delivered to the person requesting the inspection or to the person's designated agent within 10 business days of the inspection, except that an inspection report prepared for use by an attorney for litigation purposes is not required to be reported to the board. The report shall be delivered before work is commenced on any property. The registered company shall retain for three years all original inspection reports, field notes, and activity forms.

"Reports shall be made available for inspection and reproduction to the executive officer of the board or his or her duly authorized representative during business hours. Original inspection reports or copies thereof shall be submitted to the board upon request within two business days. The following shall be set forth in the report:

. . . .

"(6) A foundation diagram or sketch of the structure or structures or portions of the structure or structures inspected, indicating thereon the approximate location of any infested or infected areas evident, and the parts of the structure where conditions that would ordinarily subject those parts to attack by wood destroying pests or organisms exist.

"(7) Information regarding the substructure, foundation walls and footings, porches, patios and steps, air vents, abutments, attic spaces, roof framing that includes the eaves, rafters, fascias, exposed timbers, exposed sheathing, ceiling joists, and attic walls, or other parts subject to attack by wood destroying pests or organisms. Conditions usually deemed likely to lead to infestation or infection, such as earth-wood contacts, excessive cellulose debris, faulty grade levels, excessive moisture conditions, evidence of roof leaks, and insufficient ventilation are to be reported.

. . . .

"(10) Recommendations for corrective measures.

. . . .

"(13) The inspection report shall contain the following statement, printed in boldface type:

"'NOTICE: Reports on this structure prepared by various registered companies should list the same findings (i.e. termite infestations, termite damage, fungus damage, etc.). However, recommendations to correct these findings may vary from company to company. You have a right to seek a second opinion from another company.'

"An estimate or bid for repairs shall be given separately allocating the costs to perform each and every recommendation for corrective measures as specified in subdivision (c) with the original inspection report if the person who ordered the original inspection report so requests, and if the registered company is regularly in the business of performing corrective measures.

"If no estimate or bid was given with the original inspection report, or thereafter, then the registered company shall not be required to perform a reinspection.

"A reinspection shall be an inspection of those items previously listed on an original report to determine if the recommendations have been completed. Each reinspection shall be reported on an original inspection report form and shall be labeled 'Reinspection' in capital letters by rubber stamp or typewritten. Each reinspection shall also identify the original report by date.

"After four months from an original inspection, all inspections shall be original inspections and not reinspections.

"Any reinspection shall be performed for not more than the price of the registered company's original inspection price and shall be completed within 10 working days after a reinspection has been ordered."

19. Section 8518 of the Code states:

"When a registered company completes work under a contract, it shall prepare, on a form prescribed by the board, a notice of work completed and not completed, and shall furnish that notice to the owner of the property or the owner's agent within 10 working days after completing the work. The notice shall include a statement of the cost of the completed work and estimated cost of work not completed.

"The address of each property inspected or upon which work was completed shall be reported on a form prescribed by the board and shall be filed with the board no later than 10 working days after completed work.

"Every property upon which work is completed shall be assessed a filing fee pursuant to Section 8674.

"Failure of a registered company to report and file with the board the address of any property upon which work was completed pursuant to subdivision (b) of Section 8516 or Section 8518 is grounds for disciplinary action and shall subject the registered company to a fine of not more than two thousand five hundred dollars ($2,500).

"The registered company shall retain for three years all original notices of work completed, work not completed, and activity forms.

"Notices of work completed and not completed shall be made available for inspection and reproduction to the executive officer of the board or his or her duly authorized representative during business hours. Original notices of work completed or not completed or copies thereof shall be submitted to the board upon request within two business days."

20. Section 8610, subdivision (c) of the Code states:

"Each registered company shall designate an individual or individuals who hold an operator's license to act as its qualifying manager or managers. The qualifying manager or managers must be licensed in each branch of pest control in which the company engages in business. The designated qualifying manager or managers shall supervise the daily business of the company and shall be available to supervise and assist all employees of the company, in accordance with regulations which the board may establish."

21. Section 8620 of the Code provides, in pertinent part, that the Board may suspend or revoke a license when it finds that the holder, while a licensee, has committed any acts or omissions constituting cause for disciplinary action or in lieu of a suspension may assess a civil penalty. The statute also provides that a respondent may request that a civil penalty of not more than $5,000 be assessed in lieu of an actual suspension of 1 to 19 days, or not more than $10,000 for an actual suspension of 20 to 45 days. Such request must be made at the time of the hearing and must be noted in the proposed decision. The proposed decision shall not provide that a civil penalty shall be imposed in lieu of a suspension.

22. Section 8624 of the Code states:

"If the board suspends or revokes an operator's license and one or more branch offices are registered under the name of the operator, the suspension or revocation may be applied to each branch office.

"If the operator is the qualifying manager, a partner, responsible officer, or owner of a registered structural pest control company, the suspension or revocation may be applied to the company registration.

"The performance by any partnership, corporation, firm, association, or registered company of any act or omission constituting a cause for disciplinary action, likewise constitutes a cause for

disciplinary action against any licensee who, at the time the act or omission occurred, was the qualifying manager, a partner, responsible officer, or owner of the partnership, corporation, firm, association, or registered company whether or not he or she had knowledge of, or participated in, the prohibited act or omission."

23. Section 8638 of the Code states that "[f]ailure on the part of a registered company to complete any operation or construction repairs for the price stated in the contract for such operation or construction repairs or in any modification of such contract is a ground for disciplinary action."

24. Section 8639 of the Code states:

"Aiding or abetting an unlicensed individual or unregistered company to evade the provisions of this chapter [the Structural Pest Control Act, Bus. & Prof. Code, § 8500 et seq.] or knowingly combining or conspiring with an unlicensed individual or unregistered company, or allowing one's license or company registration to be used by an unlicensed individual or unregistered company, or acting as agent or partner or associate, or otherwise, of an unlicensed individual or unregistered company to evade the provisions of this chapter is a ground for disciplinary action."

25. Section 8641 of the Code states:

"Failure to comply with the provisions of this chapter, or any rule or regulation adopted by the board, or the furnishing of a report of inspection without the making of a bona fide inspection of the premises for wood-destroying pests or organisms, or furnishing a notice of work completed prior to the completion of the work specified in the contract, is a ground for disciplinary action."

26. Section 8642 of the Code states that "[t]he commission of any grossly negligent or fraudulent act by the licensee as a pest control operator, field representative, . . . or by a registered company is a ground for disciplinary action."

27. Section 8650 of the Code states, in pertinent part:

"(a) In the name of the licensee or registered company as set forth upon the license or registration . . . ."

28. Section 8652 of the Code states:

"Failure of a registered company to make and keep all inspection reports, field notes, contracts, documents, notices of work completed, and records, other than financial records, for a period of not less than three years after completion of any work or operation for the control of structural pests or organisms, is a ground for disciplinary action. These records shall be made available to the executive officer of the board or his or her duly authorized representative during business hours."

29. Section 8654 of the Code states, in pertinent part:

"Any individual who . . . has had his or her license revoked, or whose license is under suspension, or who has failed to renew his or her license while it was under suspension, or who has been a member, officer, director, associate, qualifying manager, or responsible managing employee of any partnership, corporation, firm, or association whose application for a company registration has been denied for any of the reasons specified in Section 8568, or whose company registration has been revoked as a result of disciplinary action, or whose company registration is under suspension, and while acting as such member, officer, director, associate, qualifying manager, or responsible managing employee had knowledge of or participated in any of the prohibited acts for which the license or registration was denied, suspended or revoked, shall be prohibited from serving as an officer, director, associate, partner, qualifying manager, or responsible managing employee of a registered company, and the employment, election or association of such person by a registered company is a ground for disciplinary action."

30. Section 8666 of the Code states, in pertinent part:

"It shall be unlawful for any licensee under this chapter to recommend or to perform any pest control corrective work under any contract or agreement that the licensee knows or has reason to know is in excess of that required to eliminate the condition for which the licensee was employed."

///

31. Section 8690 of the Code states, in pertinent part:

"The board shall not issue any company registration under this chapter unless the applicant shall have filed with the board on a form prescribed by the board written evidence of an insurance policy approved by the board or a bond as specified in this article, being in effect at the time of the issuance of the company registration."

32. Section 8691 of the Code states:

"No registered company shall engage in any of the practices for which it is required to be registered by this chapter unless it maintains such insurance policy or bond as specified in this article."

33. Section 8695 of the Code states, in pertinent part:

"The violation of any provision of this article . . . shall be grounds for the suspension or revocation by the board of the operator's license of the owner or qualifying manager or managers of the registered company and of the company registration."

34. Section 8697 of the Code requires, "Each company registered under the provisions of this chapter shall maintain a bond executed by an admitted surety insurer in the amount of four thousand dollars ($4,000)."

35. Section 11519, subdivision (d) of the Government Code authorizes the Board to require restitution of damages suffered as a condition of probation in the event probation is ordered.

REGULATORY PROVISIONS

36. California Code of Regulations, title 16, section 1911 states:

"(C) locally treat by any or all of the following:

"1. exposing the infested area(s) for local treatment,

"2. removing the infested wood,

"3. using another method of treatment which exterminates the infestation. If infestations of wood-destroying pests extend or exist beyond the area(s) of local treatment, they may not be exterminated.')

"When a complete inspection is performed, a recommendation shall be made to remove or cover all accessible pellets and frass of wood-destroying pests.

"When a limited inspection is performed, the inspection report shall state that the inspection is limited to the area(s) described and diagrammed. A recommendation shall be made to remove or cover all accessible pellets and frass of wood-destroying pests in the limited areas. The limited inspection report shall include a recommendation for further inspection of the entire structure and that all accessible evidence of wood-destroying pests be removed or covered.

"(9) For the extermination of subterranean termite infestations, treat an infested area under the structure when subterranean termite tubes are found connected to the ground or when active infestations are found in the ground. Subterranean termite tubes shall be removed where accessible, except where a licensee is using an above ground termite bait station that requires the use of the termite tubes to be effective. Where a licensee is using an above ground termite bait station that requires the use of termite tubes to be effective, subterranean termite tubes can remain in place for the duration of the licensee=s use of the termite bait stations. At the conclusion of the treatment, the subterranean termite tubes shall be removed."

39. California Code of Regulations, title 16, section 1992 states:
